## About Us

As a niche infrastructure services contracting business since 2012, Rockford Services has become one of the leading providers of integrated telecommunication services across Australia and New Zealand.

Our team, based in South East Queensland, is focused on delivering exceptional outcomes and building long-lasting industry relationships.

The Rockford team ensures that all client projects are achieved with minimum disruption, and prioritise customer and community needs.

**It's how we consistently and successfully deliver turnkey projects of all sizes to our clients.**

## We never compromise on safety or the quality of our work.

We are extremely proud of our unparalleled expertise and excellent customer service, our outstanding health and safety record, and excellence in compliance.

**It's those things that make your project delivered on time, on budget, and with success.**

# How we work

Here at Rockford Services, we always strive to deliver the highest level of customer service through:

- ↳ Regularly exceeding customer expectation
- ↳ Competitive rates
- ↳ Cutting-edge technology
- ↳ Regular consultation and collaboration
- ↳ High quality builds

Through the implementation of our proven processes and extensive knowledge base, we make informed decisions to deliver the best outcomes. For you.

Additionally, our highly functional team undergoes regular training, leading to our ongoing success in today's challenging environment.
